GENERAL INFORMATION

Current Skills	Python, R, SQL, C++, HTML, CSS, JavaScript
About Me	Nashville native transitioning from a legal career to pursue programming, networking, cybersecurity, data science, data analytics and data engineering, with industry focuses in healthcare and insurance, to combine the creativity of a musical background and the discipline of a legal background with technical capabilities and interests.

TECHNICAL EXPERIENCE

CHSPSC, LLC dba Community Health Systems <i>Information Security Specialist</i>	Franklin, Tennessee February 2022 – Present
---	--

- Coordinate the vendor security risk assessment process for 83 different hospitals across the United States.
- Analyze data relating to vendor cybersecurity risks with respect to the confidentiality, integrity and availability of protected health information, personally identifiable information and other sensitive data.
- Institute compensating cybersecurity controls for certain vendor solution implementations.
- Draft, edit and negotiate information security agreements as needed for various vendor relationships.

Nashville Software School <i>Data Scientist</i>	Nashville, Tennessee July 2021 – Present
---	---

- Created an RShiny application to analyze and predict classical composers and their historical periods based on musical variable data derived from the Spotify Web API.
- Created and analyzed a SQL database of 17 million batch job records from an advanced computing center to derive trends relating to batch job scheduler failures.
- Scraped and analyzed 4,500 records relating to political contributions to U.S. Congress members during the 2020 election cycle using Python.

LEGAL EXPERIENCE

Legal Practice <i>Law Firm Associate / In-House Attorney</i>	Various Locations August 2016 – February 2022
--	--

- Managed the governmental approval process and signing of a \$60 million asset acquisition of a rural hospital in Georgia by a Fortune 100 healthcare company.
- Led the signing of multiple joint ventures in connection with the development of inpatient psychiatric hospitals by a NASDAQ-listed behavioral healthcare company based in Tennessee involving consideration of \$40-\$70 million.
- Coordinated the research, drafting and submission of an application for a certificate of authority for a new Delaware health insurer to facilitate the provision of Medicaid coverage to 1,000's of Delaware residents.
- Facilitated the closing of a \$34 million sale of a venture capital-backed recruitment SaaS provider to a \$260 billion private equity fund.
- Assisted the all-night signing of a \$250 million sale of a private equity-backed provider of emergency notification software to a \$10 billion private equity fund.
